

Forward Event Calendar Program 2010 • April 2010

The Swiss Biotech Association is the national industry association of the Biotechnology Industry in Switzerland. The SBA works very closely with a number of dedicated partners. This program overview informs members and interested parties about the events and projects in which the Association is involved.

Most of the events will be announced with special SBA-invitations to the members of the SBA. However, it is of benefit to inquire occasionally about future events at www.swissbiotech.org Internet site. The executive office is also available for further information.
